

STATE OF MONTANA
Department of Military Affairs
P O Box 4789
Fort Harrison MT 59636-4789

Addendum No. - 3 -

Invitation For Bid 70523, Turn Key Radio/Microwave Site Development issued by the State of Montana, Department of Military Affairs is amended:

Statement of Work and Specifications –

Add the following language to Section 1:

Contractor is responsible for having the tower site professional engineer ensure that the site complies with FAA requirements for site documentation and tower height.

For the Flying J site, the contractor will prepare and submit a form which includes the following language and format:

Within five days after the structure reaches its greatest height, proponent is required to file a FAA form 7460-2, Actual Construction notification, at the OE/AAA website (<http://oeaaa.faa.gov>). This form will be the source document to validate the structure site elevation and structure height for charting on aeronautical charts by the National Aeronautical Charting Office and to put the structure into the National Obstacle Database.

Provide a signed, certified engineering/survey data from a professional engineer, architect or surveyor on the certifiers letterhead. This 'as built' survey must have a '2C,' or better accuracy, code, the following accuracy code verbiage shall be on or attached with the survey:

For Aeronautical Study No. 2006-ANM-4852-OE, I certify that the latitude _____ and longitude _____ are accurate within +/- 50 feet horizontally; and the site elevation of _____ feet AMSL is accurate within +/- 20 feet vertically. With a structure height of _____ feet AGL, the overall height is _____ feet AMSL. The horizontal datum (coordinates) are in terms of the North American Datum of 1983 (NAD83) and expressed as degrees, minutes and seconds. The vertical datum heights are in terms of the National Geodetic Vertical Datum of 1988, and are determined to the nearest foot.

SIGNED: _____

(Professional Engineering Title (REQUIRED))

(With seal imprint)

PRINTED: _____

Additional Questions -

The following questions and responses clarify elements in the Statement of Work and technical specifications or contractual requirements.

- 1) Section 2.3, page 2, "Owners Right to Lien Releases" is no longer there

Section 2.3, page 2 was deleted.

- 2) Section 6.2.3, page 11, is new. I have no idea what or where Form 1354 is

Section 6.2.3, Form 1354 is specific to new construction of National Guard facilities, delete for this project.

- 3) Section 6.4.2 "Work must be substantially complete within (??)days...."

Section 6.4.2, completion date will be negotiated with successful contractor(s).

- 4) Section 6.5 on page 13 "Liquidated Damages...in a sum of No/Dollars??.."

Section 6.5, liquidated damages will be determined for each site and not prescribed by General Condition/Supplemental General Condition requirements.

- 5) Section 7.8 "Asbestos", and Section 7.9 "Performance Bond" is gone.

Section 7.8, "Asbestos", delete

The State of Montana Prevailing Wage information is available at the following site:
